## **HALOPIN ECO**

# **HALOPIN ECO**

# Our eco-mini for line voltage

In terms of miniaturization, HALOPIN from OSRAM has heralded the development of a new modern generation of luminaires and therefore set a standard that is used by lamp and luminaire manufacturers throughout the world. The ECO version of this lamp has further benefits: It offers energy savings of up to 20% and enables new luminaire designs to be created thanks to its reduced thermal output.
