HALOSTAR ECO

HALOSTAR ECO

The mini saver

The HALOSTAR ECO is the smallest of the OSRAM energy-saving lamps. This pin-base lamp is ideal for "cestarlight canopies", furniture luminaires and chandeliers. Thanks to its innovative technology and infrared coating (IRC) this environmentally friendly lamp saves energy and costs " up to 30% compared with conventional lamps of the same output " over its average life of 4000 hours.
