## PARATHOM PAR16 2W

### PARATHOM PAR16 2W

#### Room for special effects

With its PAR16 shape, the PARATHOM® PAR16 2W from the family of LED reflector lamps, is ideally suited for accent lighting. With its 30° beam angle it can generate nice spot effects at short distances. Thanks to the widely used E27 or GU10 base, it fits in commercially available light fixtures to create a wide variety of moods. With its extremely low power consumption and long lamp life, the PARATHOM® PAR16 2W sets the standard for environmental friendliness and can be used for economical long-term lighting.
