LUMILUX T5 HE HIGH EFFICIENCY

LUMILUX T5 HE HIGH EFFICIENCY

Optimal efficiency

HE stands for High Efficiency. With a tube diameter of only 16 mm, these lamps offer an extremely high luminous efficacy of up to 104 lm/W (at 35°C). They are designed for ECG operation and are up to 20 % more efficient than LUMILUX T8 lamps. They also enable extremely slim and compact luminaires to be created because their volume is up to 50 % less and their length 5 cm shorter than comparable T8 lamps.
