Low voltage

Bright ideas for specialists

OSRAM low-voltage halogen lamps have such long lives, high luminous intensity and color brilliance that they are ideal for demanding applications in the professional and commercial sectors. The range of low-voltage lamps, including HALOSTAR, DECOSTAR and HALOSPOT, opens up unlimited opportunities in a wide variety of applications such as retail outlets, offices, conference rooms and hotels. The ECO versions produce extra cost savings for professional users.

HALOSTAR

The free-burning low-pressure HALOSTAR pin-base lamps from OSRAM with their decorative bright dots of light offer completely new design options for hotels, restaurants and also the home.

HALOSPOT

In shops, hotels and restaurants, for architectural lighting and shop window displays – in fact wherever high-intensity light is needed to create strong accents, HALOSPOT from OSRAM is the light source of choice.
